PAVLOV VLADISLAV

DATA-SCIENTIST

WHY?

- work with BigData;
- gain experience with real data;
- get teamwork skills;
- Learn new machine learning algorithms.

CONTACT

EDUCATION

SAINT PETERSBURG STATE UNIVERSITY OF ECONOMICS

HARD SKILLS

- Python;
- Numpy, Scikit-learn, Pandas, Seaborn, matplotlib, Plotly, CatBoost;
- Basic machine learning algorithms such as linear and logistic regression, decision trees, cluster analysis;
- BeautifulSoup, Selenium, Xpath, Scrapy and some other relevante libraries;
- TensorFlow, Keras;
- GitHub, SQL;
- Technical English (B1-B2);
- Linear algebra, mathematics analysis, statistics, probability theory

WORK EXPERIENCE

I have no experience in IT due to my studying. However, I have trained on Kaggle training datasets and Codeforces also I have studied various technical literature. Furthermore, I regularly improve my skills. I am attaching a link to GitHub (https://github.com/Vladislav03k). The internship is a great chance for me to gain experience on a real data.

ABOUT MYSELF

I am a 5th-year student in the direction of customs administration. I have been studying Python and Data Science since August 2021 and also interested in scraping(parsing). In parallel with my studies, I am studying at the online courses of geekbrains, also doing sport. I really like active sports, reading books. I am a sociable, curious and purposeful, I get great pleasure from overcoming difficult tasks.
